Subject: Due midday February 5th - Please Review & Verify TASC Site Support (December 2014)

Importance: High

Hi everyone.

Attached is the TASC site support report for December 2014. **Project leads and/or Regional TASC coordinators need to take a look at the report and verify that the written summary is accurate for this month; your review of the is part of the monthly approval process.** TASC Coordinators, you may need to pass this report on to the project leads in your region to complete the review. Sorry for the short turnaround time but I need you to verify your sites **by midday, February 5th.** (I realize that some people may be out of the office and in this case, my review of the reports will have to suffice.)

The task order(s) associated with a site is noted on the far left column of the site-specific costs

pages (1 & 2), or see below for the breakdown of sites by task order:

(The list below is cumulative. As such, your site may be on the list even if it didn't receive TASC support last month. However, if your site didn't receive TASC support last month, there should not be a current cost listed on the attached report unless there are lagging costs.)

Task Order #1 Covering many of sites with on-going support, carried over from the previous TASC contract.	Task Order #2 Covering TANAs and CIP assistance only.	Task Order #3 Covering new projects and/or previous sites with a history of intermittent support needs.	Task Order #4 Covering Superfund Joint Training Initiative (Support)
R2-18 Mile Creek PP	R10- Formosa Mine	R1 – Peterson/Puritan	
R2-American Cyanamide	R9- Brown & Bryant	R2-St. Regis Mohawk (Alcoa Grass River)	R9- Rockets, Fireworks
